"Mr. Chairman, fully am I persuaded that the rulers and statesmen of the earth, all of whom are to-day earnestly proclaiming their desire for peace, are sincere in their protestations. Why then is this universally desired peace not secured? These rulers are strangers, and therefore, naturally and mutually suspicious. The French have a proverb which says: 'We hate only those we do not know.' The reverse is equally true, 'We cannot love those whom we do not know.'

Senor Don Francisco Leon de la Barra Ambassador of Mexico, brought a kindly message of good will from that membe of the "sisterhood." He said the people of Mexico regarded the erection of the marble home as an emblem of future good will between the republics and estimonial of regard for Latin America.

"We mean by the 'Pan-American idea that which is tending toward the reality of the perfect relations between ou people and yours," he said. "And this is another bond to foster those relations and mutually increase our natural advantages.

"This splendid structure, and all it stands for, will tend to overcome son of the prejudices which exist in Latin America that have perhaps been only accentuated by interested nations not entirly unselfishly.

WHAT THE BUREAU DOES.

The International Bureau of the American Republics is the office of the International Union of the American Republics, which is a friendly organization comprising all of the twenty-one independent nations of the Western hemisphere. This union holds international conferences every few years at means of promoting the welfare, commerce, peace, and friendship of the countries par

The bureau is the active agency for carrying out the resolutions and conventions of such conferences and is largely occupied in spreading practical and useful information throughout the world concerning the American republies. To this end, it not only maintains a staff of correspondents, statisticians, trade experts, and translators, and a library of 18,000 volumes containing the latest official and unofficial reports and books on American countries, but it publishes numerous hand-books, pamphlets, maps, and a carefully edited monthly bulletin of 200 pages, all of which have a large

It now conducts a correspondence averag ing 6,000 letters a month and distributes approximately 40,000 pieces of printed matter in the same period.

circulation.

Its chief executive officer is the director, who is chosen by and is responsible to the governing board composed of the diplomatic representatives in Washington of the American republics and the Secretary of State of the United States as chairman ex-officio.

The bureau was organized at the first Pan-American conference held in Washington during the winter of 1889-90, and presided over by James G. Blaine, Its scope was enlarged at the second conference, held in Mexico City in 1901-02, and at the third conference, held at Rio Janeiro in 1906, attended by Elihu Root, resolutions were passed providing for its reorganization and the broadening of its responsibilities and work into an international institution of recognized usefulness to all America.

Its former building was located at 2 La fayette square, corner of Pennsylvania avenue. The new structure, provided through the generous gift of Andrew Carnegie and the contributions of the American republics, of which the corner stone was laid May 11, 1908, and its grounds represent an invest ment of \$1,000,000.

TAFT FOR PERFECT UNION

President Taft's speech was a characteristic utterance, pledging his support to Secretary Knox in the perfection and enforcement of peaceful relations be-

tween the twenty-one sister republics. He asserted he will not be satisfied until the union is so perfect that twentyone republics will instantly unite to prevent warfare between any two.
